## ADOPT-A-CLASSROOM

Educators often spend thousands of their own dollars every school year to make their classrooms an exciting and engaging learning environment for their students. They not only create a warm and welcoming space, but they go above and beyond to celebrate each child in their class.

Our *Adopt-a-Classroom* program offers parents, businesses, and community members the opportunity to join our school family and support our dedicated teachers. The goal of this program is to support teachers in keeping their classroom stocked and celebrating students' birthdays, and holidays.

You can choose to adopt as many classrooms as you wish, with the ultimate goal of getting every classroom adopted.

**As an Adopt-a-Classroom Volunteer, you will:**

- Receive a list of students in the classroom along with their birthdays, and any allergies they may have. *(Each classroom includes a teacher, a teacher assistant, and up to 10 students.)*
- Purchase birthday party supplies, snacks, and either cupcakes or a cake for the classroom celebrations. *(we are not able to subsidize the cost of purchases)*
- Coordinate with the teacher(s) to arrange the drop-off time for party supplies.
- Work with teacher to plan a celebration if a student's birthday falls on a weekend or during the summer,
- Maintain regular communication with teachers to address their basic classroom supply needs throughout the year.

Join us in making every classroom a place of joy and celebration!  
Your support helps create unforgettable memories for our students.
